

Measuring Products

MTi Group offer an extensive range in measuring equipment for the mining Industry. All Tape measures are compliant with mining regulations relating to conductivity and non ferrous end condition requirements. All tape measures have been selected for ease of use and durability. With consideration of environment and corrosive agents MTi have selected top quality measuring tapes at competitive prices.

Thermo Measure (part # TM-030) *Each*

The new thermo measure has been developed using the concept of the MiTiMeasure cord. The Hi Temp PVC coated line has half meter increments and a temperature logger complete with Ruslyn cordwheel for deployment. The product is durable and essential for all sites that may experience hot ground. This cost effective alternative to other products on the market has been custom designed for the mining environment, the line is durable so the graduations will not wear off.

MiTiMeasure (part #: PL series)

The MiTiMeasure consists of a reinforced nylon core with an abrasive resistant PVC coating. This tape is most Shot firers tool of choice for dipping holes, pattern marking and general measuring applications. Available in 30m, 50m and 100m lengths.

Canvas Hand Reel (part # CHR-400)

The Canvas Hand Reel is made from heavy duty canvas and is easily packaged for transport and freight and is made from a durable long lasting material . The Canvas Hand Reel is 400mm in diameter and is guranteed to make all your general measuring jobs easier to complete.
